

# The 19<sup>th</sup> Daffodil Dawdle, 30<sup>th</sup> March 2008, Results

Mixed weather and heavy overnight rain especially to the south turned into a warm spring day enjoyed by the 139 starters (of 173 entrants). 94 finished the long route, 34 the short route, 6 intermediate distances and 5 retired (89, 22, 1 and 7 in 2007). The going was rather wet underfoot in places – especially before CP1 on the long route, but generally dry. The large number of non-starters (about twice the normal number) was almost certainly due to the overnight rain in Essex, those absent missed a good days walking.

Apologies to those who spent time looking for a missing stile, it WAS there 3 weeks earlier. The footpath was diverted earlier in the year, and the fence (from the road to the 'private' gate) seems to have been removed along with the diversion notice.

Long route 26.3 miles				Short route 18.8 miles
