

Winter Poppyline, 26th-27th February 2011, Results

The new start venue at Cromer High School saw 156 intrepid walkers/runners heading off into the North Norfolk mud! Heavy rain from Friday afternoon until the early hours had had its expected effect on the going. The morning itself was slightly misty/drizzly but that improved throughout the day – with the exception of a couple of short showers in the early afternoon.

The heavy going was probably responsible for the 29 retirements (much higher than the NFN last year which had only 1 – in spite of the persistent rain later in the day).

Gerald was nearly retired (out of time) at CP3, but carried on behind Bill and Phillip (who were supposedly sweeping). All got lost, but eventually found CP4 (where Malcolm & Ron didn't pull them out!). However they stood no chance of getting to CP5 at a sensible time – especially since they were bound to get lost again! Bill and Phillip eventually bumped into Gerald – who had a map out and knew where he was – and all 3 arrived at Hanworth just before 5am. They were found there by Brian and Michelle who had been driving around on the vain hope of finding them (looking along the route itself would be pointless in the extreme).
